## ABOUT

As a frontend developer, I design and build responsive, user-friendly websites that combine creativity with technology. I strive to merge creativity with technology to deliver impactful results.

## WORK EXPERIENCE

- **CloudPeak Technologies Pvt Ltd, Pune.** June 2024 - Present
  - Developed and optimized responsive UIs for Quick Hub using React.js, integrating API calls for seamless data flow.
  - Implemented multiple condition handling and leveraged React dependencies & libraries to enhance functionality.
  - Practiced and gained a basic understanding of Node.js, Express.js and Nest.js, exploring backend concepts and API integration.
  - Edited and produced videos for meta permissions using Adobe Premiere Pro, ensuring high-quality content.
  - Debugged and tested code to identify and resolve issues, ensuring efficient performance and reliability.

## SKILLS

- React.jsVs
- Javascript
- HTML
- CSS
- Bootstrap CSS
- Tailwind CSS
- MySQL
- Vs - Code
- IntelliJ Idea
- Figma
- Adobe Tools
- GitHub
- Node.js
- Nest.js

## INTERNSHIPS

- **Technogeeks - Full Stack Java** Jan 2024 - April 2024  
Stack : HTML, CSS, JavaScript, Bootstrap, Core Java, Basic Advance Java, Spring Framework, SQL
  - Built Connectify, a social media app using Firebase DB, incorporating content-based features with filtering techniques.
  - Designed a website with Thymeleaf, REST API, and CRUD operations to manage product data (create, get, edit, delete).
- **Nivaan Infotech - Basic Of ReactJS** Jan 2023 - Feb 2023  
Stack : HTML, CSS, JavaScript, Bootstrap, ReactJS
  - Learned how to enhanced the usability of existing applications by applying the latest accessibility standards.
  - Created a word counter project named "Docket" using ReactJs.

## EDUCATION

- B. E. - Computer Engineering 8.38**  
Gujarat Technological University  
2020 - 2024
- Class - XII 2020 **55.37%**
- Class - XII 2018 **68.67%**

## ACHIEVEMENT

Completed Virtual Internship in TopperWorld in the Web Development with 2 projects.  
[VMS-Bank Website](#) and [Coffee-Me.](#)

## PROJECTS

- **Connectify - Social Media App** [App](#) | [Github](#)  
Stack : HTML, CSS, JavaScript, Bootstrap CSS, Firebase Database
  - Implemented user authentication (login, signup, password recovery) and real-time data syncing with Firebase Realtime Database.
  - Developed features for creating, editing, and deleting posts, along with real-time commenting functionality.
- **Docket - Word Counter** [App](#) | [Github](#)  
Stack : React.Js, Bootstrap CSS
  - Developed "Docket," a word counter app with text manipulation features and dark mode for improved user experience.
  - Used Bootstrap CSS to ensure responsive design across various devices.
