## HIGHLIGHTS

- Frontend Developer with hands-on experience in building responsive and interactive web applications using React.js, JavaScript, HTML, and CSS.
- Proficient in modern UI libraries such as Tailwind CSS, Bootstrap, and Material UI to design visually appealing and mobile-friendly user interfaces.
- Worked on QuickHub – a feature-rich SaaS platform integrating GraphQL APIs, Redux for state management, and efficient authentication flows.
- Strong understanding of component-based architecture, reusable UI patterns, and performance optimization techniques in React applications.
- Quick learner with a passion for clean code, scalable design, and staying updated with modern frontend trends and best practices.
- Experienced in handling authentication flows with JWT Tokens, API integration, and dynamic component rendering using React Hooks and Redux Toolkit.

## SKILLS

**Frontend:** HTML5, CSS3, JavaScript, ReactJs, Redux, Axios, GraphQL

**Styling**: Tailwind CSS, Material UI, Bootstrap CSS

**Backend/DB:** Node.Js, Express.Js, MongoDB, Basic MySQL/PostgreSQL

**Tools:** VS Code, GitHub, JWT, Figma

**Additional Tools:** Adobe Tools For Editing (Adobe After Effect, Adobe Premiere Pro, Adobe Illustrator)

## LANGUAGES

English, Hindi, Gujarati.

## EXPERIENCE

**Cloudpeak Technologies Pvt Ltd** - *Software Developer*

June  2024 – Present

**Technogeeks , Pune**- Full Stack Java *Developer Intern*

January 2024 – April 2024

**Nivaan Infotech, Visnagar**- *ReactJs Developer Intern*

January 2023 - February 2023

## Work details

### Software Developer - ReactJs (June 2024 To Present)

Working at CloudPeak Technologies, I'm contributing to the development of Quick-Hub, a business automation platform built using ReactJs (frontend) and NestJS (backend) with GraphQL APIs. The application integrates WebSocket-based real-time chatbot and WhatsApp support.

Key modules include review management, chatbot communication, social media handling, campaign promotions, and ad management, aimed at helping businesses grow efficiently.

**Roles and responsibilities:**

- Developed and optimized responsive UI for Quick Hub using ReactJs, integrating API calls for seamless data flow.
- Implemented multiple condition handling and leveraged React dependencies & libraries to enhance functionality.
- Debugged and tested code to identify and resolve issues, ensuring efficient performance and reliability.
- Edited and produced videos for meta permissions using Adobe Premiere Pro, ensuring high-quality content.

**Technologies –** HTML5, CSS3, ReactJs, Tailwind CSS, GraphQL, GitHub, Redux, Material UI.

### Full Stack Java Develope Intern (January  2024 To April 2024)

Working at Technogeeks, I completed a Full Stack Java internship where I built a social media app using Firebase and developed a product management system using Thymeleaf, Spring Boot, REST APIs, and CRUD operations.

**Technologies** - HTML, CSS, JavaScript, Bootstrap, Core Java, Basic and Advance Java Concept, Spring Framework, SQL.

### ReactJS Developer Intern (January 2023 - February 2023)

Completed an internship as a ReactJs Developer at Nivaan Infotech, where I enhanced application usability by applying modern accessibility standards and developed a word counter project named "Docket" using ReactJs.

**Technologies** - HTML, CSS, JavaScript, Bootstrap, ReactJS.

## EDUCATION

**S. R. Patel Engineering College, Unjha** — Bachelor of Engineering in Computer
JUNE 2020 - JUNE 2024
Grade: 8.38 CGPA

**Sahjanand School Of Achiever, Gandhinagar** — Higher Secondary Certificate - 12th Science
JUNE 2018 - JUNE 2020
Grade: 55%

**N.M Nootan serve Vidyalaya, Visnagar** — Secondary School certificate - 10th

JUNE 2016 - JUNE 2018

Grade: 68%
